

RANGER 

Oscar

EPOS Designed for
Independent Record Shops

Designed Specifically for Independent Music Retail

- No retail sector has a product base as demanding as recorded music
- Over 1 million lines changing at a rate of 5,000 per week
- Oscar is the only system designed specifically for record shops with a vast music catalogue
- Quick to learn and easy to use
- Saving valuable time – cuts transaction times and stock management time

Industry Catalogue and Barcodes with Daily Updates

- The UK Official Charts and ERA endorse Oscar
- Oscar provides sales data directly to the UK charts
- Official Charts provide the 'official' UK music catalogue of over 1M titles, the only one to have complete barcode coverage and essential trade information. This catalogue is updated every day
- Barcode driven - fast scanning for product and special barcodes
- Oscar's internal database has barcodes for every music item
- Supplied complete with dedicated barcode printer
- Supplied barcode labels are 'Peelable', ie can be removed without leaving residue
- Prints barcodes for non-labelled product, department sales and much more

Locally Hosted with Remote Access

- No internet connection required
- Vast database of music product instantly available and updated daily
- Able to be accessed anywhere

Flexible Promotional Tool

- Use for temporary and permanent promotions
- Built in formula creates 'deals' such as:
 - Timed period promotions
 - Buy one, get one free
 - Buy 2 items and get discount etc.
- Items can be placed in promotions by simply scanning or uploading from reports

Stock Control and Re-ordering

- Oscar displays current stock levels in real time
- Re-order recommendations can be based on restock policies and minimum numbers
- 1000's of stock items able to be inputted per hour
- Reports can be used to create orders, return notifications and many other functions

End of Day Sales Reports, Invoicing and Statements

- Up to the minute sales reports analysed by date, time, distributor or other criteria
- Reports easily customised by the retailer or by Ranger (report customising is part of the standard support agreement)
- Quick look sales analysis and cash balancing
- Oscar recognises account customers and provides invoices and statements
